Profile

Eager to learn and very enthusiastic.
Currently on my 5th year of university, finishing a master's degree in Computer Science and Engineering and expanding my professional experience in IT simultaneously.

I've grown a special interest in the areas of application development and distributed systems throughout my academic and professional growth.

Experience

Software Engineer
since Nov 2015

GMV Portugal

Full-stack development and engineering of secure web and mobile applications.

Trainee
from Feb to Jul 2015

Novabase

Curricular internship program in association with the Universidade Nova de Lisboa.

Design and conception of a hybrid web architecture for mobile Business Intelligence applications. Development and testing of a solution based on the same architecture targeted at the energy sector.
